

Staff Attorney

Reports to: Vice President of Legal & Policy

PennFuture's mission is to lead the transition to a clean energy economy in Pennsylvania and beyond. We protect our air, water, and land, and empower citizens to build sustainable communities for future generations. Working throughout the Commonwealth, PennFuture's team of attorneys, policy experts, organizers, communications specialists, and advocates watchdog against polluters and environmental injustices, educate the public, and advance pro-environment policies.

INTRODUCTION:

PennFuture is one of the first statewide environmental organizations in Pennsylvania to employ a full-time legal staff to fulfill its mission. Entering its third decade as a force for environmental protection, PennFuture prides itself on employing some of the brightest, most determined and committed environmental lawyers. With legal tactics at the organization's core, PennFuture lawyers are given substantial responsibility and independence to shape legal strategies that achieve outcomes and address priorities. The position offers a unique opportunity to use advocacy, regulatory, watchdog, and litigation skills to advance case law, shape and defend environmental policy, ensure environmental laws are enforced accordingly, and, ultimately, protect the environment.

This Staff Attorney position will work on a variety of environmental issues in Philadelphia and the surrounding region with a prioritization of supporting PennFuture's *Keep Philly Green & Clean Campaign*. Through campaigns, coalitions, and other tactics, PennFuture is working aggressively to reduce water pollution in the Philadelphia region of the Delaware River watershed and elevate green stormwater infrastructure as a key environmental issue. As such, PennFuture seeks a qualified attorney to lead our legal and regulatory efforts, engaging with city, state, and federal agencies and undertaking important cases in furtherance of the campaign goals. Additional work supporting PennFuture's regional or statewide legal undertakings may be required.

COMMITMENT TO DIVERSITY, EQUITY, INCLUSION, AND JUSTICE

PennFuture knows that in order to achieve our mission, we need to ensure that all Pennsylvanians have equitable access to clean air, clean water, a stable climate, and a clean and sustainable economy. We are committed to ensuring diversity, equity, inclusion, and justice in our organizational culture, policies, practices, and programs. Like the environmental and conservation movement writ large, we have historically fallen short in our efforts to build a truly equitable Pennsylvania. Our vision is to center equity and justice in everything we do as well as to combat systems of oppression and injustices that have long harmed Pennsylvania's environmental justice communities.
